

Bin storage and collection...

For shops

The bin storage strategy is the provision of an internal communal bin storage area for each block which will be fob accessed and controlled. All bin storage areas have been sized based on a weekly collection. The exception to this is the One Stop Shop which has been sized based on a daily bin collection. Individual bin storage areas have been considered for the One Stop Shop, Doctor's Surgery, Dentists' and Butchers as these shops and facilities require specialist bin storage.

For flatted blocks

The bin storage strategy is the provision of an internal communal bin storage area for each block which will be fob accessed and controlled.

For houses

The bin storage strategy is the provision of an attractive external covered bin store individual for each house located within front garden areas.

Key

- Communal refuse store
- Individual refuse store
- Proposed recycling bank location
- Residential communal bins for flat blocks
- Individual bins for houses
- Retail blocks
- Doctor's Surgery
